# O hai! My name is Krisztian and i'm a designer*

*I am a multitalented designer and a problem solver with past experiences in development and related methods. I take every concept apart into pieces and study each part until I understand them. Testing, hacking, thinking outside of the box and striving for the maximum are my working philosophies.*

*Sometimes I don't know the right answers, but always try to find the right questions.*

## You can reach me by:
